| Solar Water Heaters | 3              | 3              | 3         |
| Others              | 1              | 1              | 1         |
| TOTAL               | 100            | 100            | 100       |

## **Geographical Comparison of Gross Turnover**

Figures in Rupees Crores

| Zones | Q2<br>2011-12 | Q2<br>2010-11 | % Growth | FY<br>2010-11 |
|-------|---------------|---------------|----------|---------------|
| South | 177.64        | 129.79        | 37       | 575.37        |
| North | 15.44         | 10.92         | 41       | 56.46         |
| West  | 17.84         | 12.62         | 41       | 62.90         |
| East  | 10.98         | 7.80          | 41       | 42.87         |
|       | 221.90        | 161.12        | 38       | 737.60        |

## Reasons for Fall in Margins (Q2 to Q2)

| Particulars                          | Q2- 2011-12 | Q2- 2010-11 |
|--------------------------------------|-------------|-------------|
| COGS                                 | 73.40%      | 71.98%      |
| Selling and Distribution<br>Expenses | 9.86%       | 7.73%       |
| Establishment Expenses               | 4.55%       | 3.81%       |
| Interest Cost                        | 1.93%       | 1.63%       |

## **Cost of Goods Sold (COGS)**

- Increase in all metal prices
- Increase in Crude oil prices pushing up cost of plastic used in cabinets, insulations
- Increase in labour cost in own and outsourced facilities pushing up cost of the product.
- Increase in all transportation costs due to diesel price hike

## **Selling & Distribution Expenses**

- Additional discounts and incentives in Fan , Pump, wire, Solar water heater & digital UPS
- Fan and pump poor season due to rains
- Wire additional discounts given due to fall in copper prices in September end forcing us to offer discounts on products produced with higher value copper.
- Solar water Heater capital subsidy scheme by Ministry of New and renewable Energy (MNRE), players offering subsidy before actually receiving it - Forcing us also to cut prices. We may be able to recover these amounts in subsidy by next year.
- Digital UPS no power cut in July & August so discounts given. However in October realisations has increased in the product.
- Increase in freight outward due to increase in transportation costs

#### **Establishment expenses**

- Increase in rent New offices and ware houses rented replacing smaller spaces taken initially
- Increase in repairs & maintenance Networking for computers at new branches and other infrastructure development – More of one time expenditure
- Loss on sale of fixed assets Few temporary buildings demolished on moving to new premises

#### **Interest Cost**

- Increased working capital of Rs. 40 Cr.
- Increased cost of capital (8.5 % to 12.25 %)
- Cash Conversion Cycle shows improvement to 78 days during Q2 2011-12 from 87 days in Q2 2010-11
