

**Your appliances are precious to us.
As they are to you.**

V-Guard Electronic Voltage Stabilizer

V-GUARD 

Designed to protect your appliances

For over 4 decades V-Guard lived up to the reputation of making reliable products that were designed to work efficiently and last a lifetime. And now we are taking our next quantum leap. Harnessing the learnings, insights and experience of four decades to re-design and re-think the working of our products across the various categories that we straddle. With only one goal in mind. To delight our consumers with thoughtfully designed products enabling a better quality of life.

These brand standards and values make V-Guard the largest selling and most trusted stabilizer brand in India. Features like automatic restart, turn-on delay, time-delay system and high & low voltage cut-off guarantee appliances protection against voltage problems.

V-Guard Stabilizers come in different sizes, with different capabilities for a wide range of appliances including Air Conditioners, Smart LED TVs, Refrigerators. Mainline Stabilizers are an additional offering meant for general purposes. The variations in the range of stabilizers address the differing requirements for different appliances.

V-Guard has a stabilizer for anyone with any kind of appliance. Whatever you are looking for in a stabilizer, V-Guard is sure to have it.

Salient Features

Performs in wide input range

Low & High Voltage Cut-off Protection

Overload protection (MCB)

Range available

MINI CRYSTAL

- Line noise & Spike protection
- Generator compatibility
- High Voltage cut-off

VGSD 50

- Low & High Voltage cut-off Protection
- Intelligent Time Delay System
- Built-In Thermal Overload Protection

VSDI 50

- Intelligent Time Delay System
- Low & High Voltage cut-off Protection
- Latest IC Technology

ARIZOR 4150

- Smart Digital Display
- Compatible with Regular & Inverter ACs
- Wall Mounting Cabinet Design-Elegant and easy to install

VWI 400

- Intelligent Time Delay System
- Smart Digital Display
- Compatible with Regular & Inverter ACs

VWR 400 PLUS

- Low & High Voltage cut-off Protection
- Latest IC Technology-Assures reliable protection
- Wall Mounting Cabinet Design

VG 400

- Intelligent Time Delay System
- Low & High Voltage cut-off Protection
- Latest IC Technology

VTI 4150

- Low & High Voltage cut-off Protection
- Latest IC Technology-Assures reliable protection
- Wall Mounting Cabinet Design-Sleek and easy to install

VGB 500 DIGITAL

- Built-In Thermal Overload Protection
- Low & High Voltage cut-off Protection
- Latest IC Technology - Assures reliable protection.

DIGITAL STABILIZER FOR SMART LED TV

Features

- Line noise/ spike protection
- Generator compatibility
- Low & high voltage cut-off
- Performs in wide input range
- Primary switching technology
- Zero Cross Detection technology
- Output voltage correction without break
- Mains turn-on delay
- Digital Display
- Warranty – 3 Year

STABILIZER FOR WASHING MACHINE / MICROWAVE OVEN / TREADMILL / DISHWASHER

Features

- Low & high voltage cut-off
- Performs in wide input voltage range
- Primary switching technology
- Mains turn-on delay
- High power efficiency
- Inrush current with stand capability
- ABS Body
- Compact and cost effective
- Digital Display
- Warranty – 3 Year

STABILIZER FOR INVERTER REFRIGERATOR

Features

- Fail-safe circuit - Specially designed circuit, to cut-off power to the connected unit, in case of component failure
- Fine quality components - Tested under stringent quality control measures at every stage of manufacture
- Automatic Restart - Auto switch ON & OFF on power supply returning to safe voltage range, avoiding manual reset
- High & Low Voltage cut-off - Unique cut-off system to prevent high/low voltage from reaching the equipment
- Elegant appearance perfectly matched with internal efficiency
- Sleek ABS cabinet designed in a range of vibrant colours to suit the ambience of your room
- Digital Display
- Warranty – 5 Year

STABILIZER FOR AC

Features

- Intelligent Time Delay System - gives the compressor proper balancing time when mains on returns
- High & Low Voltage cut-off - Unique cut-off system to prevent high & low voltage from reaching the equipment
- Latest IC Technology - assures reliable protection
- Built In Thermal Overload Protection – Protects the stabilizer and compressors from high temperature burnout
- Wall Mounting Cabinet Design - elegant and easy to install
- Digital Display
- Warranty – 3 Year

STABILIZER FOR AC WITH SMART ENERGY MONITORING

Features

- Energy monitoring - measure the energy consumed by the connected air conditioner
- Intelligent Time Delay System - gives the compressor proper balancing time when mains on returns
- High & Low Voltage cut-off - Unique cut-off system to prevent high & low voltage from reaching the equipment
- Latest IC Technology - assures reliable protection
- Built In Thermal Overload Protection – Protects the stabilizer and compressors from high temperature burnout
- Wall Mounting Cabinet Design - elegant and easy to install
- Digital Display
- Warranty – 3 Year

MAINLINE STABILIZER

Features

- Attractive and compact design
- Overload protection (MCB)
- Digital Display
- High power efficiency
- Inrush current with stand capability
- Cost effective
- Low & High voltage cut-off
- Performs in wide Input Voltage Range
- Table top mountable
- Bypass option
- Warranty – 2 Year
