

THUNDERMIX L

TECHNICAL SPECIFICATION (AS PER LEGAL METROLOGY GUIDELINES)

ELECTRICAL CHARACTERISTICS

Parameter	Thundermix L
Voltage	230V AC, 50 Hz
Power Consumption	750 W
Insulation	Class F
Protection	Class I
Rating	Total rated ON time – 30 minutes (Continuous ON for 5 minutes maximum, OFF for 2 minutes minimum, and rest time 45 minutes)
Motor	Universal 750 W High Power Motor
No-Load Speed	21,000 RPM (Maximum)
With-Load Speed	Approximately 12,000 RPM
Overload Protector	3.2 A
Body Material	ABS
Jar Material	Stainless Steel
Dome Material	Polycarbonate
Blade Assembly	Stainless Steel, Machine Ground and Polished
Speed Control	Regulator knob with 3 speeds and whip function
Flex Cord	PVC insulated 3-pin cord (0.75 sq. mm) with 6 A plug top and earthing
Carton Size	34 (L) × 21 (W) × 35.5 (H) cm
