

Stylish and efficient. To beat the heat.

V-Guard Fans

Consistent Performance

For over four decades V-Guard lived up to the reputation of making reliable products that were designed to work efficiently and last a lifetime. And now we are taking our next quantum leap. Harnessing the learnings, insights and experience of four decades it will be our endeavour to understand human lives and its relationship with the tools and appliances that he uses. And then to evolve a seamless experience with thoughtful engineered products in our quest to enriching consumer lives.

V-Guard offers a range of ceiling fans, table fans, pedestal fans, wall fans, ventilating fans, cabin fans, multi purpose fans, personal fans and tower fans. They are available in a range of exciting colours and contemporary designs that can complement the decor in your homes or offices. V-Guard have designed fans that are energy-savers, fans that also light up a room, and fans that are less noisy, more classy and more efficient.

Salient Features

Superior high speed motor for better air delivery.

Micro-motor driven oscillation.

Energy saving high speed fan

Range available

CEILING FAN

The V-Guard ceiling fan features fine detailing for variant colour interior room decoration with contrast colours.

TABLE FAN

Enjoy cool breeze this summer with the V-Guard table fans. It helps to keep you calm, cool and relaxed in a sweltering season.

WALL FAN

The V-Guard Wall Fans are nicely designed combination of attractive features & performance. They features a strong build that also rates high in durability.

PEDESTAL FAN

Although compact in size, the V-Guard pedestal fans gives you efficient cooling when you need it. Instead of using a larger fan in cramped spaces try V-Guard pedestal fans.

VENTILATING FAN

The V-Guard Exhaust Fan helps keep you fresh and comfortable by venting out excess steam and cooking odours so they don't linger in your kitchen.

TOWER FAN

Beat the summer heat with V-Guard VeeMagik Tower Fan. Sleek and stylish, it is armed with automatic swing movement that ensures higher levels of air delivery and better air flow.

IMAGINA

PREMIUM SMART LED FAN

NEW

Features

iMode - A technological innovation that adjusts speed based on ambient temperature.

Control the Imagina with just a touch, using the IOS/Android app on your phone.

Imagine the seashore in your living room with the Breeze Mode.

Enjoy a million LED Lights, all of them to suit any mood you're in.

You'll never have to step out for a party. Have one at your home with the Imagina's Rhythm-Flash-Fade mode feature.

Forget the regulator. Fast or slow, make your choice on your phone with the 8 different speed settings.

Don't concern yourself with switching the Imagina off, it'll turn itself off thanks to the timer.

Remote control operation

Ready to install assembly

Sweep	Voltage	Rated Power	Rated Air Delivery	Rated Speed
1200 mm	230 V	75 W	230 m ³ /min	340 RPM
	180 V	55 W	210 m ³ /min	300 RPM

IMAGINA

FEATURES

FEEL THE GENTLE WIND WITH BREEZE MODE

In normal Fan, Constant air flow makes discomfort like air turbulence from the window in a car.

Imagina gives gentle breeze like the wind from sea by varying the speed automatically. Also has 8 speed regulation.

AUTOMATIC SPEED REGULATION WITH i-MODE PROVIDES COMFORT SLEEP

HOW TO SELECT V-GUARD CEILING/EXHAUST FANS ACCORDING TO THE ROOM SIZE*

Model	Sweep of Fan in mm	Room size
Ceiling Fan	600	8 x 6.5 to 8 x 10 ft
Ceiling Fan	900	8 x 10 to 11 x 10 ft
Ceiling Fan	1050	10 x 12 to 13 x 12 ft
Ceiling Fan	1200	10 x 12 to 13 x 12 ft
Ceiling Fan	1400	13 x 15 to 16 x 15 ft
Exhaust Fan	150/200	6 x 6 x 9 ft
Exhaust Fan	225/200	8 x 8 x 9 ft
Exhaust Fan	300	10 x 8 x 9 ft

*Based on the following assumptions

- Room is well ventilated
- The distance between the ceiling and the blade is atleast 1 feet
- The height of the blade is not more than 8 feet from the floor

Note: For two or more fans in a room the minimum distance between the blade tips of the adjacent fans should be atleast 4 feet

* All performance parameters are checked under standard test conditions at 230 V, 50 Hz Ac

* Sweep size of fans are mentioned in millimeters. (1mm = 0.1cm)

* Colours and specifications are subject to change without prior notice.

* Colours shown may not match the actual colours due to printing limitations
